

Operating Instructions for Remote Controller with Light Control

HC-PM03F\ID-T1

- ① Motor: Up button
- ② Motor: Stop button
- ③ Motor: Down button
- ④ Light bulb: turn on/off button

HC-PM03\ID-T1

- ⑤ Motor: Up button
- ⑥ Motor: Stop button
- ⑦ Motor: Down button
- ⑧ Light bulb: turn on/off button

1. Function and Features

- ※ 86mm*86mm, in accordance with international installation standard;
- ※ The electric structure is partial conformity with the standard fire protection requirement of the electrician;
- ※ Industrial grade microcomputer chip is used to improve product quality and reliability greatly;
- ※ Use shock-proof current relay;
- ※ Components using precision SMT industry, surface moisture-proof treatment;
- ※ Power supply has safety protection, power supply time is 5 minutes;
- ※ It is used with various emitters and tubular motors.

2. Product Parameters

Product name	Remote controller with light control
Product model	HC-PM03F\ID-T1
Receiving/transmitting frequency	433.92MHz
Working temperature	-20°C~+85°C
Receiving sensitivity	-110dBm
Allowed number of transmitters	≤8pcs

Product name	Remote controller with light control
Product model	HC-PM03\ID-T1
Receiving/transmitting frequency	433.92MHz
Working temperature	-20°C~+85°C
Receiving sensitivity	-110dBm
Allowed number of transmitters	≤8pcs

3. Operating Instruction

A. Learning code

B. Deleting code
